Solar cell imports may see high anti-dumping duty

New Delhi, 20 May

ndia is likely to impose a heavy anti-dumping duty on solar energy cells being imported from the US, China, Taiwan and Malaysia.

A commerce ministry inquiry has concluded the imports are undercutting the prices of domestic industry, with underselling, suppression and price depression effects.

The ministry has identified 58 manufacturers, mostly from China, followed by Taiwan, Malaysia and the US. The anti-dumping duty would need to be notified by the Central Board of Excise and Customs.

It has identified a dumping margin range of 50-60 per cent from the US and 100-110 per cent from China. There is a dumping margin seen of 60-70 per cent for sampled manufacturers from China and 100-110 per cent for the non-sampled, indicating an unorganised market of imports from China. member, Indian
